

ETIS 2.0

This document is describing the possibilities of our website <http://cetis.combinant.be> .
By going towards this website you will come on the page underneath.

General

You also can view the website in Dutch. Changing this you can do on the left site underneath.
The terms of use you can find on the left side underneath. Please read this before using the website.
The site can be best viewed with a resolution 1024x768. Also by pressing F11 (internet explorer) you can view full page.

How further?

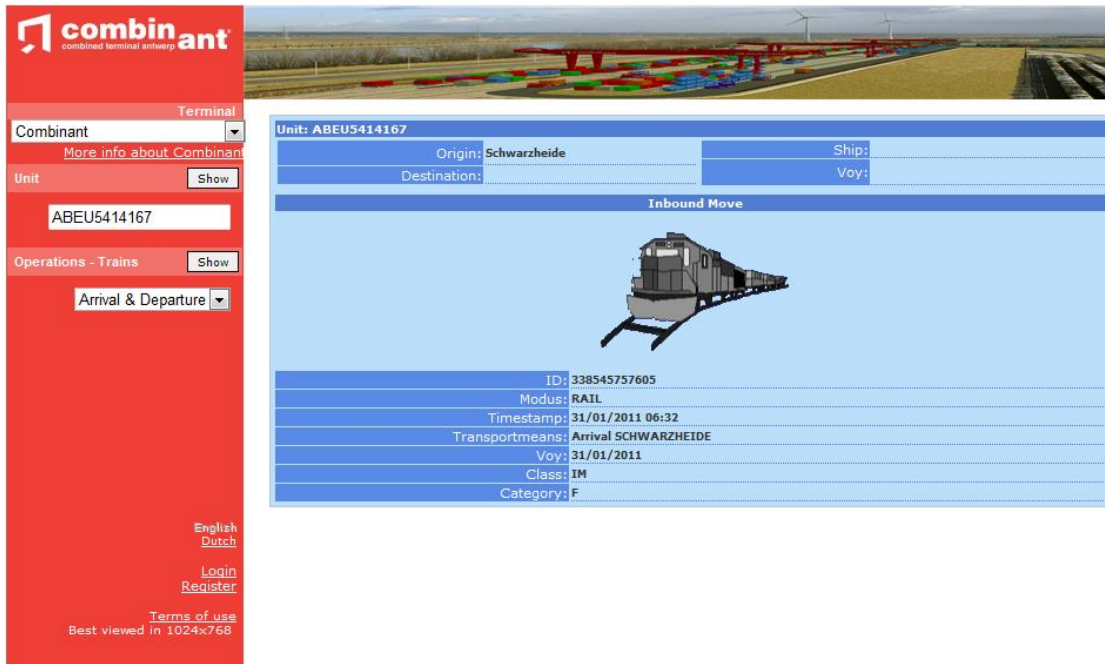

Are you a registered user ?

- yes (go to "Login")
- No
 - You want to register and you are a customer (operator, shipping agent of own depot)?
 - Yes
 - Click on 'Register'
 - No
 - You can only see some limited info about a unit on terminal.

Not registered user

You can only see info about the present status of a unit or if not on the terminal the last cycle.

If you type in a container number and click on 'Show', you could get the result underneath..

The screenshot shows the Combinant terminal interface. On the left is a red sidebar with navigation options: Terminal (Combinant), Unit (Show), Operations - Trains (Show), and Arrival & Departure. The main content area features a 3D rendering of a train yard at the top. Below it, a blue header displays 'Unit: ABEU5414167'. A table shows 'Origin: Schwarzheide' and 'Destination:'. An 'Inbound Move' section contains a 3D train model. A final table lists details: ID: 338545757605, Modus: RAIL, Timestamp: 31/01/2011 06:32, Transportmeans: Arrival SCHWARZHEIDE, Voy: 31/01/2011, Class: IM, and Category: F.

You will only see general info.

On the left side how the unit arrived (Inbound move), on the other side how it will leave. (If known)

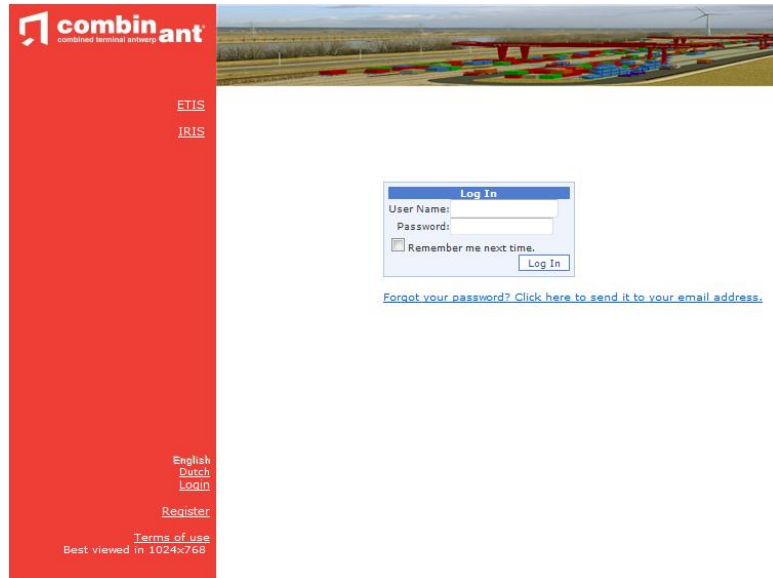

Above example is a unit which arrived by rail on January the 31st at 06.32 am.

Registered user

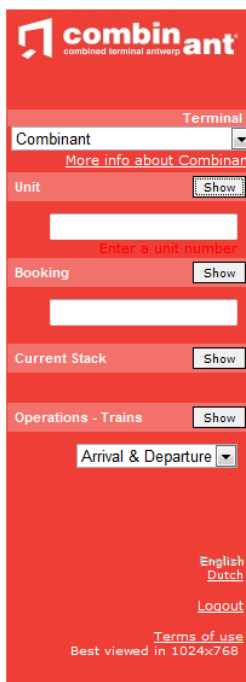

A registered user must login by clicking on the 'Login' button (left frame underneath.).

Type in your 'User Name' and 'Password', afterwards click 'Log In'.

A user and password you will receive after you have registered.

You can now choice between different info.

You can no ask three different questions (if you are a customer) :

- info about the unit
- info about a booking
- info about your units standing in stack.

For all these question you have to be acknowledge as a customer. Based on this you will receive right to see the above.

View detailed info about a unit.

Type in unitnumber and push "show"

Unit

If you are granted access and the unit is on terminal you will receive the screen below.

Demand of EIR (equipment interchange receipt)

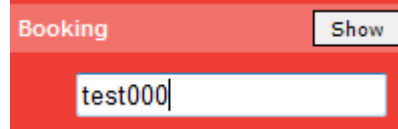

This document is a PDF which contains the exact information of the EIR delivered towards the driver.

If a EIR is available this will be on the bottom of the screen. The EIR is only available for truck related moves.

Info about a booking

You can also check if a booking (in truck – or out truck) exists in our system.

Type the booking in and push ‘show’.

A red search form with the title "Booking" and a "Show" button. Below the title is a text input field containing "test000".

You will get, if you have access and if the booking is known the info as mentioned below.

The screenshot shows the "combinant" interface with a sidebar on the left and a main content area. The sidebar has several "Show" buttons for "Terminal", "Unit", "Booking", "Current Stack", "Operations - Trains", and "Arrival & Departure". The main content area displays "Booking 230896" and a table of units.

Group	UnitNumber	IsoCode	Dimensions	Type	Category	Tarra	Bruto	DocStatus	Status
